BIO DEBUG i/c GOUS

RE: BIOGRAPHY

Dear Karin:

Thank you for your inquiry about the OVG finances (attached).

There is a bit of misduplication of my role in this matter. I am wearing this hat in order to debug the Biography but I am not taking on the hats etc. I am merely assisting in some small cycles such as sorting out the contract scene, getting some research data to OVG etc.

What I am doing does not absolve anyone of any other hat or obligation -- especially the payment of expenses to OVG.

What I don't understand is PDK's (NEP's) refusal to pay the money as the contract was signed and apparently you know of it. GO WW certainly knows of it. (E.g., Joe Burgess.)

It is just such snarls and bugs I am seeking to work out and any data you have on it would help. In fact, merely saying that PDK refuses to pay is data. I'd appreciate knowing who and why. (Don't know about it seems a bit odd as there is a signed contract! Just to make the point I am attaching a copy.)

Thus I would appreciate the payment being pushed on through. You are exactly right that it is owed. Meanwhile, I am going to gather up my data on the scene and submit a CSW to the proper terminals on how to fully handle this scene as stops like this payment are ridiculous.

One other thing you can provide me is any records (financial) PDK has re the earlier payments. I understand there was the initial advance then one payment for expenses at the same time a year ago.

Again, thank you for the inquiry. I am glad to have a person there! You are greatly appreciated. I know you'll manage fine.

MLV:

Vaughn
